SCHOOL OF MEDICINE

IT G: Drive Upgrades

February 2009

Instructions for all Students making use of MAC operating systems.

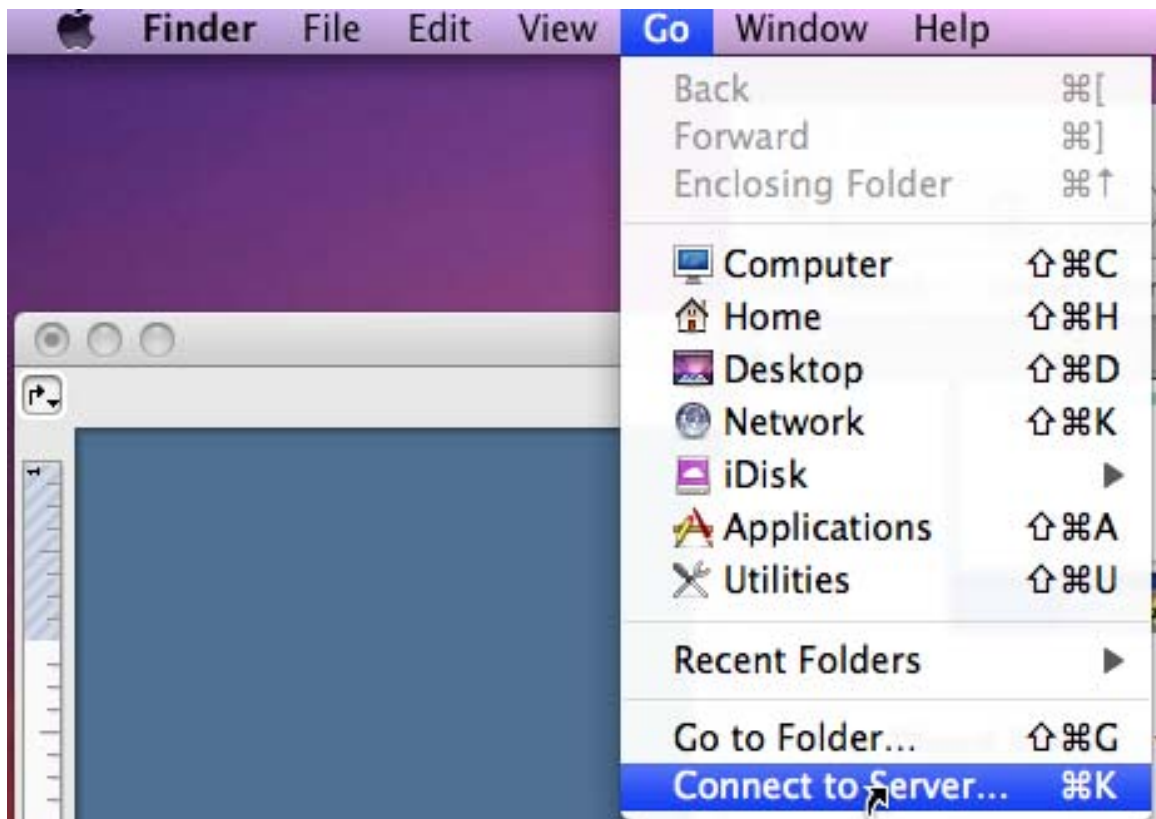

How to connect to the Students G-drive

1. Click the **DESKTOP** to get to the **FINDER** menu

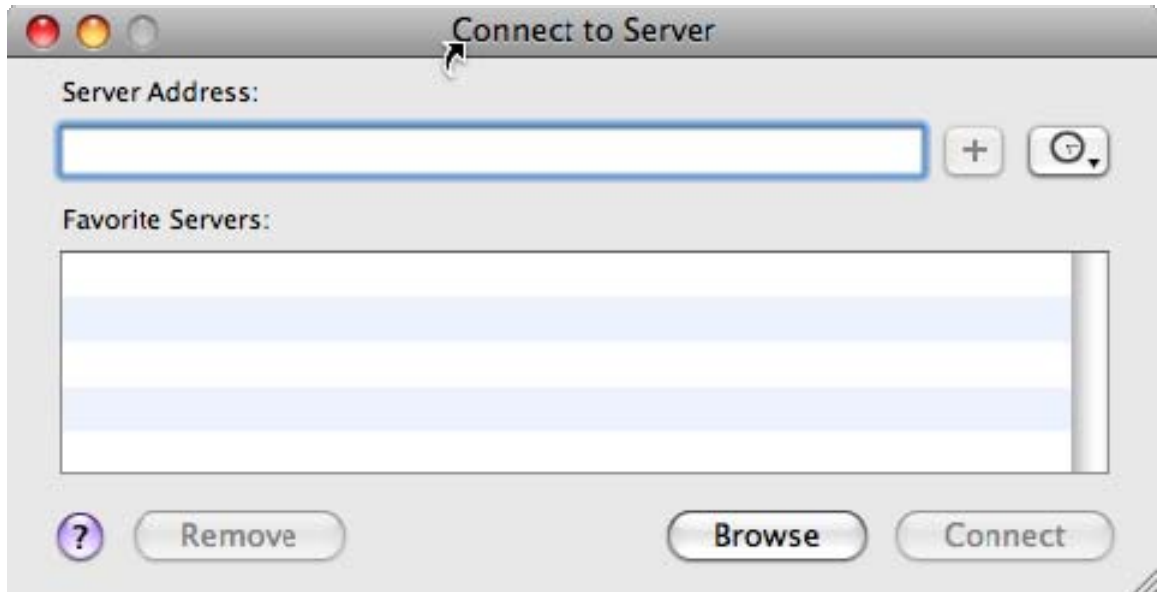

2. Select **GO** option at the top of the bar.

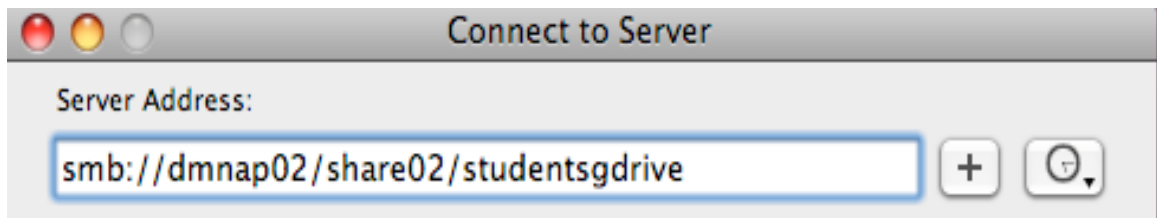

3. Click connect to server as shown below.

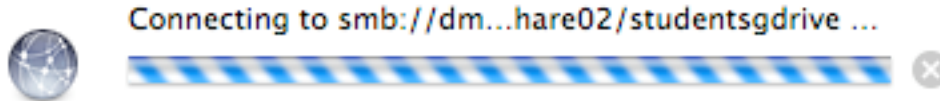

4. Type in the following address
[\\dmnap02\Share02\StudentsGDrive](smb://dmnap02/Share02/StudentsGDrive)
in the server address, when this window appears.

See Example below

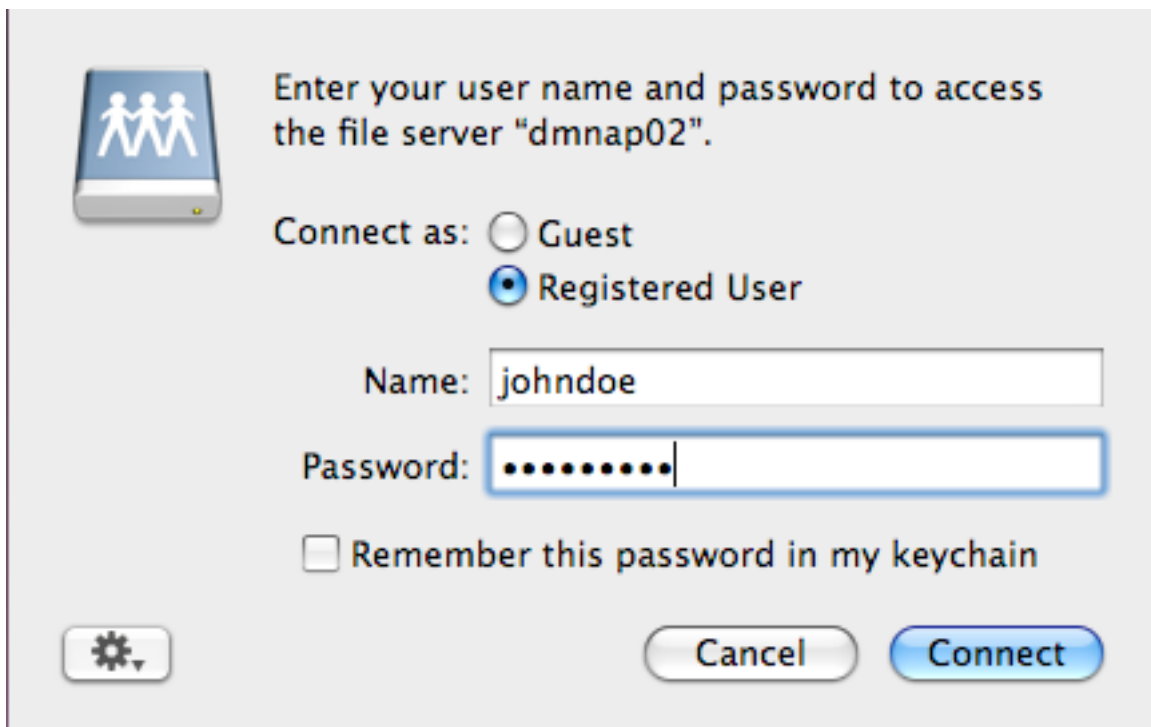

5. The following window will appear indicating that an attempt is being made to connect to the **G-drive**

6. Please enter your RUSM use credentials when prompted as shown in the following image.

NOTE; there is no need to precede your username with **rossdm_students** in this instance.

The upgrade will ensure that you gain access to the new G: Drive store.

Students failing to perform the upgrade will not have access to G: Drive study material,

Please ensure that you complete the upgrade.
